## REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: in light of Applicants' argument, claims 1, 3, 5, and 7 are patentable over the prior art patents and printed publications because of the specific new dots being formed at a center between adjacent light fluxes as a result of the adjacent light fluxes being overlapped with one another in the sub-scanning direction when an exposure intensity exceeds 50% of a maximum value and wherein a ratio of a static beam-spot diameter in a sub-scanning direction on the surface of the photosensitive body defined by  $1/e^2$  of a maximum value in an exposure distribution of the beam spot to an interval between adjacent scan lines satisfies a certain relationship, which is not taught by the art of record alone or in combination.

Claims 2, 4, 6, and 8 are allowed because they are dependent from respective claims 1, 3, 5, and 7 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hai C Pham whose telephone number is (571) 272-2260. The examiner can normally be reached on M-F 8:30AM - 5:30PM.
